

DT Projects 2023-24

Year 6 – Spring Term

Frozen Kingdoms Cushions

Year 6 produced a cushion as part of this project. The inspiration for this was their current Geography unit called Frozen Kingdoms.

Year 6 investigated and analysed a range of products at the start of this project. They learnt to use a variety of stitches building on previous skills taught, including cross stitch and blanket stitch. They learnt about applique as a way of adding detail to a design as well as adding fastenings such as zips and buttons.
