

# DT Projects 2023-24

## Year 4 – Spring Term

### Functional and Fancy Fabrics

Year 4 produced a piece of printed fabric as part of this project. Their final piece was inspired by the work of William Morris. They used wooden print blocks to create repeated motifs on their fabric. Year 4 also learnt about different fabric types as well as how to use the running stitch to hem a piece of fabric. The project also included looking at the product design of some household items that are made with fabric e.g. cushions.

Year 4 also used other types of stitches (back stitch, satin stitch and scatter stitch) to create embellishments on the piece of fabric they hemmed.
