

Our Wonderful World

What is geography?

Geography is the study of the world and its people and places.

Human features

Human features are made by people.

road

bridge

house

shop

Physical features

Physical features are natural features that are not made by

cliff

coastline

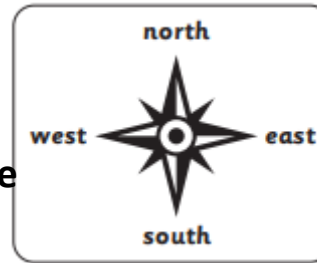

forest

mountain

Compass points

Locations can be described using the compass points of north, east, south

Maps.

A map is a drawing of an area of land or sea that has usually been drawn from above.

The equator is an imaginary line around the Earth. Places near the equator are hot, and places further away are cold.

Locational knowledge.

The world is made up of 7 continents and 5 oceans.

Core Vocabulary

human feature		physical feature
feature	hot	cold
equator	continent	Africa
Antarctica	Asia	Europe
Australasia	North America	
South America		Arctic Ocean
Indian Ocean	Pacific Ocean	
Indian Ocean	United Kingdom	
England	Northern Ireland	
Scotland	Wales	

What came before:

In Year 1, children learned about different maps (atlases, ariel maps) and cardinal compass points. They learn about the names and characteristics of the four countries of the United Kingdom and find out why there are hot, temperate and cold places around the world
