

Waves Intervention**Wave 1**

Wave 1 is about what should be on offer for all children: the effective inclusion of all pupils in high-quality everyday personalised teaching. Such teaching will, for example, be based on clear objectives that are shared with the children and returned to at the end of the lesson; carefully explain new vocabulary; use lively, interactive teaching styles and make maximum use of visual and kinaesthetic as well as auditory/verbal learning. Approaches like these are the best way to reduce, from the start, the number of children who need extra help with their learning or behaviour.

We refer to the OAP document also.

Cognition and Learning	Speech, Language & Communication	Sensory & Physical	Social, Mental and Emotional Health
Quality First Teaching Creative curriculum Differentiated curriculum planning – to extend and support students Multisensory approach to teaching and learning Access to IT Library resources Visual aids Visual timetables Word Mats/Maths Mats Home learning	Differentiated curriculum planning Talking partners Communication friendly schools Simplified language Time to process information Visual prompts	Qualified first aider Disabled access Flexible teaching arrangements Noise cancelling head phones Playground equipment for variety of sensory needs Movement breaks Handwriting scheme	Differentiated teaching School Behaviour code Behaviour strategies and policy Team point reward system Class rules School values Circle time/PSHE Assemblies School council, eco council, House captains, prefects Risk assessments Positive handling Visual prompts Transition groups Peer mediators Zones of regulation Calming stations

Waves Intervention		Wave 2	
<p>Wave 2 describes targeted small-group intervention for pupils who can be expected to catch up with their peers. Wave 2 intervention is designed for children for whom a well structured short- term programme, possibly delivered by a teaching assistant working with a teacher, is all that is needed to enable them to make accelerated progress. All interventions in wave 1 can be accessed in wave 2</p>

NRLP Waves Intervention

Wave 3

Wave 3 is about intervention for children for whom Quality First teaching and Wave 2 catch-up programmes are not enough. It may need to be a more intensive programme, involving more individual support or specialist expertise. Where it is working effectively, the waves model will have a funnelling effect, reducing through Quality First teaching the numbers requiring Wave 2 intervention, and through Wave 2 the numbers who need more intensive and individual help. This means that schools will be able to target their resources more effectively, at fewer children.

All interventions in wave 1 & 2 can be accessed in wave 3
