

Our Topic Is: **Marvellous Machines**

Machines are designed and built by people.
Inventors invent new things and engineers design and build them

We can use lots of different materials and tools to build with, such as cardboard, metal, plastic, wood, fabric or bricks

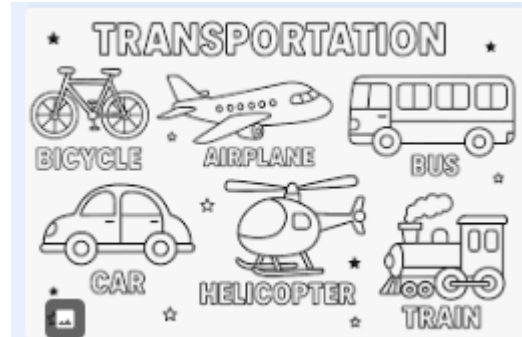

We will be doing lots of designing and building with box modelling, the big build with nuts and bolts and the woodworking bench.

We'll be using lots of shape, colour, positional and ordering language

Core Vocabulary

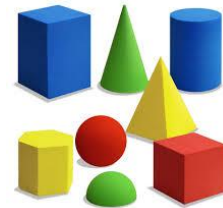

aeroplane, train, car, lorry, van, boat, ship,
motorbike, bicycle
first, last, next, forwards, backwards
between, forwards, backwards
sky, sea, land

computer, iPad, robot, machine
bigger, smaller, longer, shorter,
stick, join, build, old, new
machine, robot, kick, hit

side, corner, straight, flat, round, more, many, few
orange, green, purple

teamwork, worried, frustrated
