

Big Wide World

This half term we will be learning about our wonderful world. We will learn that our country is called England and our school is in Englefield Green.

Then we'll explore some other countries and their different animals, weather and languages.

Africa is hotter than England and lots of different animals live there.

The North and South Poles are cold. Water freezes into ice.

We need to look after our world.

We'll also talk about our holidays and enjoy lots of holiday related role play. We will look at maps, globes and Google Earth to find places we have visited.

Key Words
